PROJECTS

ShareLanka — Community Donation Platform | [React](#), [Node.js](#), [MongoDB](#), [Tailwind CSS](#)
Built a full stack platform for listing and sharing reusable goods, handling item listings, search, and a responsive UI end-to-end.

The Gadget Hub — Smart Ordering Platform | [JavaScript](#), [.NET APIs](#), [HTML/CSS](#)
Built a platform that compares distributor prices in real time and automates order placement, reducing manual price-checking.

AgroCare — Final Year Project | [React](#), [Node.js](#), [Express.js](#), [MongoDB](#), [FastAPI](#)
A machine learning-based web application that integrates plant disease detection, plant growth prediction, and plant management, combining a CNN model for disease detection with a regression model for growth prediction.
